Citing Kindles, Nooks...

“Book published electronically

If a book is available in more than one format, cite the version you consulted. For books consulted online, include an access date and a URL. If you consulted the book in a library or commercial database, you may give the name of the database instead of a URL. If no fixed page numbers are available, you can include a section title or a chapter or other number.”

Example:

Newspaper article

Newspaper articles may be cited in running text (“As Elisabeth Bumiller and Thom Shanker noted in a New York Times article on January 23, 2013, . . .”) instead of in a note, and they are commonly omitted from a bibliography. The following examples show the more formal versions of the citations.

(Footnote)

3Bumiller and Shanker, “Pentagon Lifts Ban.”

(Bibliography)

3 Ibid.
Website

A citation to website content can often be limited to a mention in the text or in a note (“As of July 27, 2012, Google’s privacy policy had been updated to include . . .”). If a more formal citation is desired, it may be styled as in the examples below. Because such content is subject to change, include an access date and, if available, a date that the site was last modified.

5 Google, “Privacy Policy.”

Anthologies

Cite a short story, poem, essay, or other work published in an anthology in the same way you would a contribution to an edited collection with multiple authors. Give the titles of most works published in anthologies in roman type, enclosed in quotation marks. An exception is the title of an excerpt from a book-length poem or prose work, which should be italicized.

(Footnote)

(Bibliography)

If the original publication date of a work is important in the context of your paper, include it after the title of the work and before the title of the anthology in both your notes and your bibliography.
